

Digital Wellbeing & Safer Spaces Framework

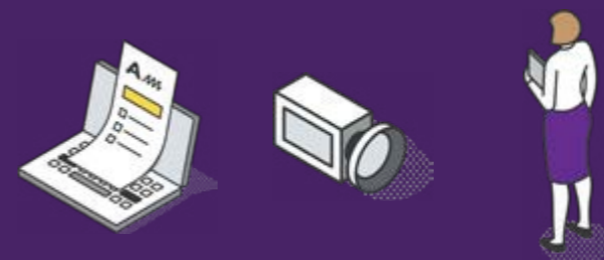

Our integrated digital safety framework combines both the online and physical environment offering a truly holistic approach to living safely in an increasingly interconnected world.

“ Supporting digital inclusion for communities. Enabling everyone access and benefit from digital opportunity, reducing risk of fear. ”

Barbara Spooner, MBE

Assessment

We will carry out an assessment of your current situation including:

- secure configuration
- physical security - alarms, CCTV etc.
- information security
- policies including passwords, GDPR compliance and access controls

Cyber Security

We can create the safer space that your community group including staff, volunteers and users require to function securely without risk.

- settings and controls for smart devices
- safer use of social media and online gaming

Training

Our training products can be delivered face to face or via access to our Learning Management System.

- cyber security for businesses, charities and individuals
- social media and apps
- practitioner training
- fraud and scam awareness
- digital skills

Digital Wellbeing

Measures and support to ensure your community group and users are operating lawfully, ethically, and safely in secure surroundings.

- user wellbeing
- access to support networks
- increasing digital inclusion
- digital safeguarding

Services

Our range of follow up and support services will help maintain your community hub to the standard required to ensure a safe and secure operating environment for your staff and clients.

- first/ second line support
- device sanitisation
- policy reviews
- cyber essentials - preparedness
- response and recovery
- business resilience plan
